

### Why SAP ECC 6.0 with iVend Retail?

*Retailers today require an integrated solution that provides a single view of the entire retail process, right from merchandise to customer loyalty. With SAP ECC 6.0 and iVend Retail, retailers can come to decisions based on real-time data, and act on it within one integrated system.*

*ECC (ERP Central Component) provides a unique platform to integrate multiple business and process areas such as MM (Material Management), PP (Production and Planning), SD (Sale and distribution) and FICO (Financial and control). It helps retailer to streamline end to end business areas.*

### iVend Retail and SAP ECC 6.0

iVend Retail integrates with SAP ERP running ECC 6.0. The entire landscape has been designed to utilize best practices built in the ECC 6.0 for Head Office processes and extend them via iVend Retail to the entire retail environment.

SAP ECC 6.0 and iVend Retail help retailers deliver a seamlessly personalized shopping experience to their consumers, exactly when and where they want, with omnichannel retail management.

### Omnichannel advantage of iVend Retail for SAP ECC 6.0

iVend Retail is configured with the SAP ECC 6.0 at the central location – typically the Head Office. The entire retail operation is connected to iVend Enterprise – the central Head Office component of iVend Retail. The stores connect to iVend Enterprise over an Internet connection. The application is designed so that even if the Internet connectivity between the store and the Head Office is lost, the stores can carry on operations without a hitch. This happens because of the selective replication of data across all stores, which is carried out by iVend Enterprise.

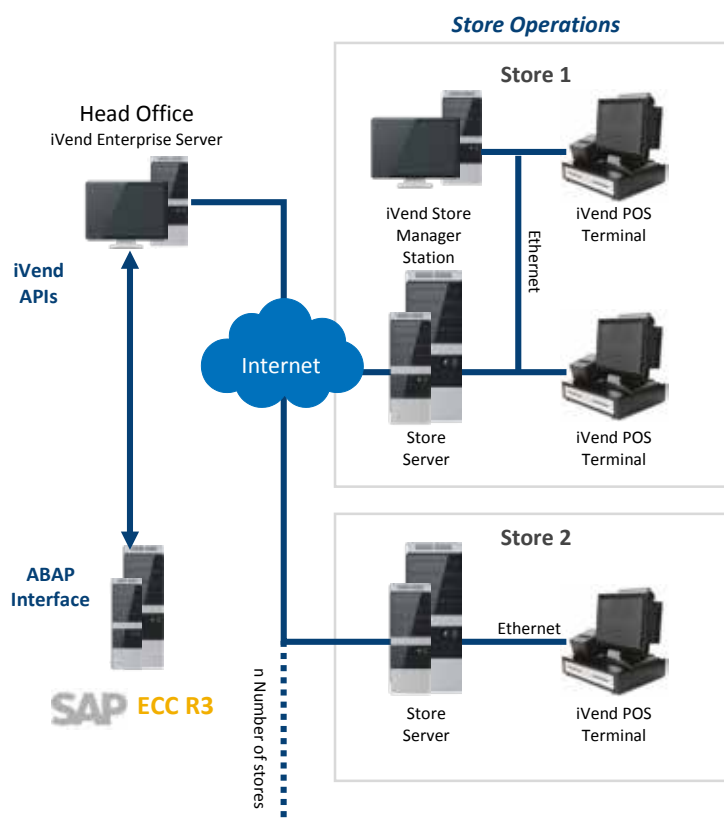

### The iVend Retail & SAP ECC 6.0 Advantage in Retail

- Integrated merchandise management with sales reporting and related functionalities
- Synchronized supply-demand planning to reduce merchandise, yet avoid stock-outs and short supply
- Increase conversion rates across channels
- Satisfy dynamic consumer buying patterns
- Determine the right pricing and promotions to maximize profitability
